

Gomer Junior School and Foundations of Learning

What?

What do children need to be able to be happy and well-developed as well as exam success?

How?

We see Gomer Children every day for 6-7hours. We impact on their lives, the way they see themselves, their life chances.

With staff working alongside each pupil at Gomer Junior School, children will be submersed within a wide range of experiences to develop their own individual Learning Foundations.

Why?

Foundations of Learning is a way to refocus our attention on the child in front of us and what they need from the Gomer community for their journey in becoming successful and happy, well developed young people.

.....Learning today for the challenge of tomorrow
